COP31: Can negotiators finally deliver results? | The Hindu explains

Wed 11 Nov · Governance & Social Justice, Environment & Ecology · GS2, GS3

• From catastrophic floods in Nepal to record-breaking heat, droughts and wildfires, the climate crisis is no longer a future threat.
• As world leaders gather in Antalya for COP31, the focus has shifted from promises to implementation.

Why it matters for India and UPSC

• **Environment:** India's NDCs (45% cut in emission intensity of GDP from 2005 levels by 2030, 50% non-fossil power capacity, net zero by 2070) and the principle of CBDR-RC.
• **International relations:** India speaks for the Global South on climate finance and technology transfer; carbon border taxes like the EU's CBAM affect Indian exports.
• **Internal security:** Open border can be misused for trafficking, fake currency and movement of criminals; SSB guards it.
• **Economy:** Hydropower trade (India buys Nepali power), cross-border rail and petroleum pipelines.

Static connect: UNFCCC & Paris Agreement

• UNFCCC adopted at the 1992 Rio Earth Summit; the Conference of Parties (COP) meets yearly.
• Paris Agreement (COP21, 2015): keep warming well below 2°C, pursue 1.5°C; countries submit NDCs.
• India's targets include net zero by 2070.

Trump says likely to meet Putin, Xi at China APEC summit

Tue 10 Nov · International Relations · GS2

• President Donald Trump indicated to reporters that a deal on the Russia-Ukraine war, the Iran issue and nuclear arms control would be on the agenda

Why it matters for India and UPSC

• **Internal security:** Unsettled LAC (eastern Ladakh, Arunachal): border infrastructure, disengagement and buffer zones; China's dual-use villages (Xiaokang) and dams on the Brahmaputra (Yarlung Tsangpo).
• **Economy:** Large trade deficit and dependence on Chinese inputs (APIs, electronics, solar, rare earths) drive PLI schemes, Press Note 3 (2020) FDI curbs and supply-chain diversification.
• **International relations:** Strategic competition in the Indian Ocean (String of Pearls), BRI vs connectivity alternatives (IMEC), and balancing via Quad while engaging in BRICS/SCO.

Static connect: APEC

• Asia-Pacific Economic Cooperation, formed in 1989; 21 member economies around the Pacific Rim.
• India is not a member.

Karnataka to write to Prime Minister asking for inclusion of enhanced quota in Ninth Schedule

Fri 13 Nov · Polity & Constitution, Governance & Social Justice · GS2

• After the High Court of Karnataka quashed the Karnataka Scheduled Castes and Scheduled Tribes (Reservation of Seats in Educational Institutions and of Appointments or Posts in the Services under the State) Act, 2022, the State government will write to Prime Minister Narendra Modi to include the enhanced reservation for SCs and STs in the 9th Schedule of the Constitution

Why it matters for India and UPSC

• **Governance & polity:** Judicial review and the separation of powers; such rulings often clarify fundamental rights or federal relations and become Mains examples.
• **Society:** Access to justice and pendency (over 5 crore cases) affect citizens' trust in institutions.

Prelims pointers

• Key terms: Karnataka, Prime Minister, Ninth Schedule, After the High Court of Karnataka, Karnataka Scheduled Castes and Scheduled Tribes

Island fisheries at the centre of India’s Blue Economy push

Tue 10 Nov · Agriculture · GS3

• India is endowed with a vast and diverse marine resource base, supported by a coastline of approximately 11,099 km and an Exclusive Economic Zone of nearly 24 lakh sq.
• With an estimated marine fisheries potential of 58.6 lakh MT within its EEZ, the sector plays a vital role in sustaining the livelihoods of nearly 50 lakh fishers, while contributing significantly to food security, nutrition, employment, income…

Static connect: Blue Economy

• India's coastline is about 11,099 km (revised measurement) and its Exclusive Economic Zone about 2 million sq km.
• Schemes include PM Matsya Sampada Yojana and the Deep Ocean Mission.

Prelims pointers

COP31: Himalayan flash floods should push all to act ‘faster and fairer’ on climate change: UN climate chief

Fri 13 Nov · Environment & Ecology, International Relations · GS2, GS3

• “The glacial collapse and flash floods in the Himalayas this year are a devastating reminder of how fragile these mountain environments can be, particularly the Hindu Kush Himalayas,” UNFCCC Executive Secretary Simon Stiell said

Why it matters for India and UPSC

• **Environment:** India's NDCs (45% cut in emission intensity of GDP from 2005 levels by 2030, 50% non-fossil power capacity, net zero by 2070) and the principle of CBDR-RC.
• **International relations:** India speaks for the Global South on climate finance and technology transfer; carbon border taxes like the EU's CBAM affect Indian exports.
• **Geography & disasters:** India is exposed to cyclones, floods and heatwaves; the Disaster Management Act, 2005 (amended 2025), NDMA and NDRF/SDRF lead the response.
• **Governance & polity:** Shift from relief to risk reduction (Sendai Framework); early warning, CDRI and climate-resilient infrastructure.

Static connect: UNFCCC & Paris Agreement

• UNFCCC adopted at the 1992 Rio Earth Summit; the Conference of Parties (COP) meets yearly.

Turkiye's President calls genocide in Gaza ‘ecocide’ at UN climate summit

Fri 13 Nov · International Relations · GS2

• “Centuries old olive trees have been cut down.
• The soil and water have been polluted in Gaza, and cities in Gaza have been turned into enormous piles of rubble,” the Turkish President said

Why it matters for India and UPSC

• **Economy:** India imports most of its crude oil, much of it from the Gulf; conflict raises oil prices, shipping and insurance costs, inflation and the current account deficit.
• **Society:** About 9 million Indians live in the Gulf; their safety (evacuation operations such as Ajay/Kaveri) and remittances (India is the world's largest recipient) are at stake.
• **International relations:** India balances ties with Israel, Iran and the Arab states; projects like Chabahar and IMEC depend on regional stability.
• **Environment:** India's NDCs (45% cut in emission intensity of GDP from 2005 levels by 2030, 50% non-fossil power capacity, net zero by 2070) and the principle of CBDR-RC.

Pradhan Mantri Janjatiya Vikas Mission

Sat 14 Nov · Governance & Social Justice · GS2

• Many of India's 10.4 crore Scheduled Tribes derive 20–40% of their annual income from Minor Forest Produce (MFP).
• Historically, tribals sold this produce to middlemen at distress prices, earning below the cost of their own labour.

Why it matters for India and UPSC

• **Environment:** Conservation under the Wildlife (Protection) Act 1972 and Forest Conservation Act 1980; India's commitments under the CBD (30x30 target).
• **Society:** Human–wildlife conflict and the rights of forest dwellers under the Forest Rights Act 2006.
• **Governance & polity:** Targeting welfare and reservation policy needs reliable data; also linked to delimitation.

Modi to visit Manila for ASEAN Summit; maritime security, trade on agenda

Fri 13 Nov · International Relations · GS2

• Modi is also set to join Australian Prime Minister Anthony Albanese, U.S.
• President Donald Trump, and Japanese Prime Minister Sanae Takaichi for the annual Quad summit in Manila.

Why it matters for India and UPSC

• **International relations:** India's Act East Policy and vision of a free, open, rules-based Indo-Pacific (UNCLOS 1982); Quad and ASEAN centrality.
• **Economy:** A large share of India's trade passes through the Malacca Strait and South China Sea; disruption hits supply chains (semiconductors from Taiwan).
• **Internal security:** Protecting sea lanes, coastal security after 26/11, anti-piracy patrols in the Arabian Sea and Gulf of Aden; India as net security provider in the IOR.

Amidst Indus water tensions, Pakistan to send vocal critic to SCO Civilisational Dialogue; first Ministerial visit in three years

Sun 15 Nov · International Relations · GS2

• Malik, the Federal Minister for Climate Change and Environmental Coordination, had earlier this year said that Pakistan would ‘cut off those hands’ that are trying to control the Indus waters

Why it matters for India and UPSC

• **Internal security:** Cross-border terrorism and infiltration across the LoC remain India's core security concern; links to J&K, drones dropping arms/drugs in Punjab, and terror financing (FATF).
• **International relations:** India's stated policy: no talks with terror; Indus Waters Treaty (1960) held in abeyance since April 2025; China–Pakistan nexus including CPEC through PoK.
• **Environment:** India's NDCs (45% cut in emission intensity of GDP from 2005 levels by 2030, 50% non-fossil power capacity, net zero by 2070) and the principle of CBDR-RC.

Poland arrests two Ukrainians over alleged Russian espionage, sabotage

Wed 11 Nov · International Relations · GS2

• Poland has long ■accused Russia and its ally Belarus of waging a hybrid campaign involving sabotage, cyberattacks ■and disinformation since Moscow's 2022 invasion of Ukraine

Why it matters for India and UPSC

• **International relations:** India's strategic autonomy: abstentions at the UN, call for dialogue and diplomacy, while keeping ties with Russia and the West.
• **Economy:** Discounted Russian crude, fertiliser and defence spares; Western sanctions and secondary tariffs create payment and trade risks for India.
• **Internal security:** Dependence on Russian defence equipment (S-400, Su-30) and the push for indigenisation (Atmanirbhar Bharat in defence).

Govt. prohibits export of unsorted lithium-ion battery waste, scrap

Wed 11 Nov · Geography, Polity & Constitution · GS1, GS2, GS3

• The Government of India has prohibited the export of unsorted lithium-ion battery waste and scrap.
• Earlier classified under the 'Free' category, the move aims to retain critical battery material within the country for recycling.

Why it matters for India and UPSC

Securing lithium and other critical minerals is central to India's electric mobility and energy storage targets amid heavy reliance on imports.
• **Economy:** Incentivizes indigenous recycling capacities and protects supply chains from global supply shocks.
• **Environment:** Fosters a circular economy by diverting toxic e-waste into secondary raw material extraction.
• **International relations:** Reduces external vulnerabilities to foreign monopolies controlling the processing and refining of battery raw materials.

Static connect: Critical Minerals Policy in India

• The Ministry of Mines identified 30 critical minerals essential for economic development and national security.
• Battery Waste Management Rules, 2022 mandate Extended Producer Responsibility (EPR) targets for recovery and recycling of battery materials.

Prelims pointers

• Export policy notifications for commodities are issued by the Directorate General of Foreign Trade (DGFT) under the Ministry of Commerce and Industry.
• Lithium is designated as a critical and strategic mineral under the Mines and Minerals (Development and Regulation) Amendment Act, 2023.

Mains angle

Discuss the significance of retaining critical mineral waste in bolstering India's domestic battery recycling ecosystem and energy transition (GS Paper III - Economic Development & Industrial Policy).

Practice question

Examine the strategic and ecological necessity of developing a domestic circular economy for critical minerals. In this context, assess the impact of recent restrictions on the export of battery scrap.

To strengthen the Supreme Court, divide it

Sun 15 Nov · Polity & Constitution, Governance & Social Justice · GS2

• Highlights structural problems in the Supreme Court where expanding judge strength without categorizing work exacerbates judicial pendency.
• Argues for dividing the Supreme Court into distinct constitutional and appellate divisions to address structural backlog effectively.

Why it matters for India and UPSC

Judicial delay affects governance, rule of law, and economic productivity. Structural division of the top court is a recurrent theme in constitutional reform debates.

• **Governance & polity:** Separating constitutional interpretation from ordinary statutory appeals preserves the apex court's core role and decongests the docket.
• **Economy:** A predictable and swift dispute resolution mechanism lowers the cost of doing business and enhances investor confidence.

Static connect: Structure of the Supreme Court of India

• Established under Article 124 of the Constitution of India.
• Functions both as the apex constitutional court and a final court of appeal under civil, criminal, and special leave jurisdictions (Article 136).
• Parliament possesses the legislative power to regulate the number of Supreme Court judges.

Prelims pointers

• Article 130 allows the Chief Justice of India to appoint other places or seats for the Supreme Court with the President's approval.
• The Law Commission of India (229th Report) recommended dividing the Supreme Court into a Constitution Bench and Cassation Benches.

Mains angle

Examines judicial reforms, specifically restructuring the Supreme Court into constitutional and appellate divisions to improve judicial efficiency (GS Paper II).

Practice question

Bifurcating the Supreme Court into a Constitutional Division and a National Court of Appeal has long been suggested to tackle chronic pendency. Analyze the merits and constitutional challenges associated with this reform.

What are the legal compulsions and political hurdles in Sheikh Hasina’s return to Bangladesh? | Explained

Sun 15 Nov · Polity & Constitution, International Relations · GS2

• Ousted Bangladeshi leader Sheikh Hasina seeks to return to domestic politics, but faces a death sentence issued by Dhaka's International Crimes Tribunal over crackdowns in July-August 2024.
• Her presence in India creates complex diplomatic pressures and legal extradition issues between New Delhi and Dhaka.

Why it matters for India and UPSC

Bangladesh is central to India's Act East strategy, internal security in the Northeast, and Bay of Bengal maritime cooperation; regime hostility complicates all three.

• **International relations:** Creates a diplomatic impasse between honouring formal extradition pacts and safeguarding long-term strategic relationships.
• **Internal security:** Political turmoil in Bangladesh poses risks of border instability, undocumented migration, and potential regrouping of anti-India elements.
• **Governance & polity:** Invokes interpretation of the Extradition Act, 1962 and treaty clauses governing political crimes and human rights guarantees.

Static connect: India's Extradition Framework

• Extraditions from India are governed by the Extradition Act, 1962.
• Most bilateral extradition treaties, including India's, include a 'political offence' clause exempting political asylum seekers, with exceptions for violent or terrorist acts.

Prelims pointers

• India and Bangladesh signed an Extradition Treaty in 2013, amended in 2016 to simplify cross-border extraditions.

Mains angle

Evaluates the legal, diplomatic, and security repercussions of extradition demands and regime change in Bangladesh on bilateral ties (GS Paper II).

Practice question

The ongoing political transition in Bangladesh poses multifaceted diplomatic and strategic challenges for India. Discuss the legal hurdles and diplomatic dilemmas India faces regarding extradition demands and neighborhood stability.

Consent Manager Registration Framework Comes into Effect; MeitY Secretary Launches Online Registration Portal

Sat 14 Nov · Science & Technology · GS3

• The Ministry of Electronics and Information Technology (MeitY) launched the online registration portal (dpbi.gov.in) for Consent Managers under the Digital Personal Data Protection (DPDP) Act, 2023.
• Consent Managers will act as registered interoperable intermediaries through which data principals can give, manage, review, and withdraw consent for data processing.

Why it matters for India and UPSC

Operationalizing Consent Managers marks the transition of the DPDP Act from legislation to regulatory practice, structurally changing how Indian citizens and corporations interact with digital data.
• **Governance & polity:** Operationalizes the fundamental Right to Privacy (Puttaswamy judgment) by granting citizens verifiable, revocation-friendly control over their personal data.
• **Economy:** Standardizes compliance for fintech and digital platforms, paving the way for a trusted consent-based data economy akin to the Account Aggregator framework.
• **Science & tech:** Demands secure, interoperable technical architecture to manage consent tokens at scale without exposing personal data to leaks or unauthorized access.

Static connect: Digital Personal Data Protection (DPDP) Act, 2023

• Defines 'Data Principal' as the individual to whom personal data relates and 'Data Fiduciary' as the entity determining the purpose and means of data processing.
• Establishes the Data Protection Board of India as an adjudicatory body for data breaches and non-compliance.
• Introduces the concept of 'Consent Managers' registered with the Board to facilitate consent management by Data Principals.

Prelims pointers

• Consent Managers are statutory entities introduced under the Digital Personal Data Protection (DPDP) Act, 2023.
• The registration framework is administered under the Ministry of Electronics and Information Technology (MeitY) via the Data Protection Board portal infrastructure.

Mains angle

Critical development in India's digital governance and data sovereignty framework, establishing institutional mechanisms to empower citizens over personal data under the DPDP Act (GS Paper 2: Governance & GS Paper 3: Science & Technology).

Practice question

What is the role of 'Consent Managers' under the Digital Personal Data Protection Act, 2023? Discuss how this institutional mechanism balances digital economic innovation with individual privacy rights.
